

IN THE CLAIMS

Claims 1-74. (Canceled)

Claim 75. (New) An isolated, cDNA molecule which encodes a polypeptide that is processed, intracellularly to a peptide that is encoded by nucleotides 70-96 of SEQ ID NO: 18, wherein said isolated cDNA molecule comprises the nucleotide sequence of SEQ ID NO: 18.

Claim 76. (New) An expression vector comprising the isolated cDNA molecule of claim 75, operably linked to a promoter.

Claim 77. (New) A host cell transferred or transfected with the isolated cDNA molecule of claim 75.

Claim 78. (New) A host cell transformed or transfected with the expression vectors of claim 76.

Claim 79. (New) The host cell of claim 77, wherein said host cell is a mammalian cell.

Claim 80. (New) The host cell of claim 78, wherein said host cell is a mammalian cell.
